

Anticipated Energy Consumption Per Property Size

Your monthly fair usage is available in your introductory email, on request from Acasa or listed on the second page of this document.

Tariff Terms

This tariff is only available to Customers who:

- do not have one or more prepayment meters;
- are a domestic customer for the supply of electricity and gas.
- have an electricity meter which is either a single rate, economy 7 or a smart meter operating in credit mode.

We reserve the right to move you onto our Standard Variable Tariff and be billed on usage henceforth for reasons including but not limited to:

- Your Property consistently using more energy than we expect a property of your size to be consuming based on seasonality assumptions according to our Fair Usage Policy;
- The number of tenants residing at the property exceeds the number advised at the point of contract;
- You have not provided Meter Readings every 60 days or upon request

We will give you 14 days' notice before this change comes into effect.

Fair Usage Policy

1. The energy you use should only be used for your own personal (and household) use in your residential property.
2. The energy and meter should not be used unlawfully or to set up or operate a business for you or anyone else.
3. We will monitor the amount of energy you are using. If you are using more energy than we expect a property of your size to be consuming, based on seasonality assumptions, we may contact you and ask you to confirm how you are using your energy and the number of bedrooms in your property (we may ask you to provide evidence of this such as your tenancy agreement).

Fair Usage Per Property Size

Dual Fuel

Property Size	Electricity (kWh per year)	Gas (kWh per year)
1	5419	24158
2	5760	24436
3	5920	25008
4	6222	27098
5	6929	29781
6	7813	32488
7	8657	34313
8	9521	35881
9	9685	37902
10	9916	40900
11	10466	43478
12	10957	46831

Electric Only

Property Size	Electricity (kWh per year)
1	10838
2	11520
3	11840
4	12444
5	13858
